## ***Personal Information:***

*Date of Birth:* 03-Feb-1987  
*Citizenship:* Russia, Israel

## ***Experience:***

Wix  
*July 2014 – Current*

### **Position: Developer Advocate**

Being a developer advocate means wearing several hats at the same time. Firstly, working as a front-end engineer, we are building the future operating system of the Wix product where every user will be able to manage their business via various CRM tools.

Secondly, being a seasonal speaker, I participate in FED meetups all over the places (Ukraine, Lithuania, Israel, Russia, Germany, and more) with different talks about technology and tools.

And lastly, being a passionate and proactive person, I start different initiative like YouGottaLoveFrontend.com conference for FED, ES6 course, and others.

New ProImage (Agfa),  
*June 2012 – July 2014*

### **Position: Senior Front-end Engineer**

***Language:***

English (Full professional proficiency)

Hebrew (Limited working proficiency)

Russian (Native or bilingual proficiency)

***Professional Membership:*** You Gotta Love Frontend Conference (co-organizer),  
Ember-IL – official group of Ember in Israel (co-organizer),  
Google Developer Groups (permanent speaker),

***About:***

I love the start up environment where people are passionate about what they do and they care. I am determined, devoted and passionate to what I do.

I believe it's OK not knowing something, but I am always learning and developing my skills.

I believe nothing can be done without a team. I do my best to bring the impact into the team and overall work.
