Sergey Bolshchikov

Software Engineer & Manager

Summary

I have a proven experience of designing, building products from ground up; managing development under real user traffic with 100k requests traffic.

I know how to build and scale a team who will continue building products.

I know how to mentor each team member to teach their own next milestone.

Experience

Wix.com
Engineering Manager
April 2018 - Present
Tel Aviv, Israel

Being engineering manager at Wix for the Front End Engineering group our goal is to create the place for over 350 front-end developers can grow, deliver and excell.

This includes the range of different spheres like recruitment, onboarding, education, communication, branding, engineering and more.
