*Center of psychological,
medical, and social
maintainability for hearing-
impaired children "ECHO"*
Oct. 2007 – June 2009

Position: Software Engineer,

Duties:

Development of Information System for Center of Hearing-Impaired Children.

The group leader of 4 developers.

Analysis of organizational structure. Defining system requirements.

Building set of models: conceptual, structural, algorithmic, mathematical.

Design of database (Firebird). Implementation of client side with C++.

Developing User Guide. National Software Registration: #2009613569

"Computer-Aided Information System 'ECHO'".

Education:

Oct. 2009 – May 2013

Master of Science,

Technion – Israel Institute of Technology, Haifa, Israel

Major: Information System

Sept. 2004 – June 2009

Bachelor of Science,

Ural State Technical University, Yekaterinburg, Russia

Major: Information Systems and Technology

Minor: Medicine

Skills:

Operation System:

OSX, Linux, Windows

Office:

MS Office, MS Project, MS Visio, OpenOffice

Development Management:

Git, Mercurial, Github, Bitbucket, JIRA

Languages:

JavaScript, OOP Javascript, CoffeeScript, Ruby, Python, C++, HTML, HTML5, CSS, SVG, JSON, XML

Libraries and Frameworks:

Ember, Knockout, Angular, Backbone, jQuery, Google App Engine, KendoUI, PhantomJS, Node, jQueryUI, Bootstrap, PureCSS

Testing:

Jasmine, Mocha, qUnit, Karma, Protractor

Modeling:

UML, OPM, IDEF, BPMN

Open Source Projects:

[***insanely-big-tables***](#)

The comparison project of tables between different JS frameworks

[***npg-selection-lists***](#)

Selections list Ember widget

[***ember-table***](#)

Contributed the fully fledged selection mechanism for ember table component

Public Appearance:

Why do I need EmberJS if jQuery is enough (DUMP) [[Video](#)][[Slides](#)]

Ember Reusable Components and Widgets (EmberFest) [[Video](#)] [[Slides](#)]

From VanillaJS to MVC (Ember-IL Meetup) [[Slides](#)]

Web Projects: From Theory To Practice (GDG Meetup) [[Video](#)] [[Slides](#)]

Front end Development: The Important Parts (New ProImage) [[Slides](#)]

Language:

English (Full professional proficiency)

Hebrew (Limited working proficiency)

Russian (Native or bilingual proficiency)

Professional Membership: Ember-IL – official group of Ember in Israel (co-organizer),
Google Developer Groups (permanent speaker),

About:

I love the start up environment where people are passionate about what they do and they care. I am determined, devoted and passionate to what I do.

I believe it's OK not knowing something, but I am always learning and developing my skills.

I believe nothing can be done without a team. I do my best to bring the impact into the team and overall work.
