Personal Information:

Date of Birth: 03-Feb-1987 Citizenship: Russia, Israel

Experience:

Wix Position: Developer Advocate

July 2014 – Current Being a developer advocate means wearing several hats at the same time.

Firstly, working as a front-end engineer, we are building the future operating system of the Wix product where every user will be able to manage their

business via various CRM tools.

Secondly, being a seasonal speaker, I participate in FED meetups all over the places (Ukraine, Lithuania, Israel, Russia, Germany, and more) with different talks about technology and tools.

And lastly, being a passionate and proactive person, I start different initiative like YouGottaLoveFrontend.com conference for FED, ES6 course, and others.

Ember-IL – official group of Ember in Israel (co-organizer),

Google Developer Groups (permanent speaker),

About: I love the start up environment where people are passionate about what they do

and they care. I am determined, devoted and passionate to what I do. I believe it's OK not knowing something, but I am always learning and

developing my skills.

I believe nothing can be done without a team. I do my best to bring the impact

into the team and overall work.
